

SUBSTITUTE PROFESSIONAL STAFF EMPLOYMENT

The school system will employ as substitute teachers, to the extent possible, persons who meet the requirements for teacher appointments and will assign teachers substitute teaching positions on the basis of their areas of competence.

All substitute teachers will be expected to provide educational services, rather than to assume merely a student-supervisory role. They will be provided with as much support as possible by building administrators and teachers. The Superintendent will set, document, and present to the School Committee annually the daily rate of pay for substitute teachers, including extended-term substitutes.
